Manage catalog and system data

ISBN Lookup

Fetch book metadata from Open Library API by entering an ISBN

ISBN

9780141439518

Fetch

Export Data

Export all library data including books, patrons, and loan history as a ZIP file containing CSV files.

Export includes:

- books.csv - Complete catalog
- patrons.csv - All patron records
- loans.csv - Loan history
- metadata.json - System configuration

Export Library Data

Import Data

Import library data from a previously exported ZIP file. This will merge with existing data.

Warning: Importing data will add new records. Duplicate ISBNs will be skipped.

Click to select a file or drag and drop
ZIP file (max 10MB)
